

## Puzzle – 29

### Q- Prisoner and Policeman Puzzle

A prisoner is told "if you tell a lie we will hang you, if you tell truth we will shoot you." What can he say to save himself?

### My Approach and Solution –

The prisoner should say **“I think you are going to hang me”**.

As if they were to hang him, the statement would become TRUE, so he should be shot instead of being hung.

Similarly, if he were to be shot, then the statement would become FALSE, so he would have to be hung.

By this way, he could save himself.
